APPENDIX I	34
AFTERWORD	53

Introduction

The following chapters are only my own thoughts as I am thinking them out loud. They are not to be construed as fact, except quotations derived from the Koran, the Bible or other books or the news media reports anywhere. The facts are documented and speak for themselves.

My thoughts are my own and I am permitted to think. I am stating herewith, that I am not inviting nor am I inciting anyone to revolt or to be part of any act or action. If anything, I hope, that my thoughts might provoke some people to think, who use their brains and challenge me to prove me right or wrong. But that is totally irrelevant to me, as I am not agent of God, nor am I an enforcer of His rules and laws. I cannot protect His religion or His Commandments. As far as I know, I am still allowed to think, rightly or wrongly. I think that it is my duty to bring my thoughts out into the open, nothing more and nothing less. I understand that thinking is legal, be it bad or good.

This is just a short introduction to the man who compiled this book and his background. I was born in Egypt 1939 in the shadow of the pyramids into a big, simple and poor family as the oldest boy between a family with six children. I studied hard in school to get out of the misery of being poor and was always two years ahead of my class to be able to start working and share in the family's expense. But at the tender age of 14, I decided that I had to leave Egypt soon. I was eager to leave Egypt after witnessing the political turmoil of the revolution to army rules and the removal of the king and the following disappointment of the citizens of Egypt, who had anticipated a better life, which did not materialize. I finished high school and joined the law school in the University of Cairo. As I was always ahead of my class by always jumping two classes ahead, at the age of 18, I was dreaming about seeing the world and I went first to Kuwait to make money, which was at that time still a British Protectorate. Kuwait was later on declared to be an independent State. The conditions in Kuwait for me as a young boy coming from Egypt were very harsh and very primitive. I stayed in Kuwait for about four years, all the while helping my family back home in Egypt and saving some money to continue my education and my dream to become a pilot. I traveled around Europe and decided to study in Germany. Instead of becoming a commercial pilot because of the language barrier, I became more realistic and decided to study film making. Later I got a diploma in film making from London England and in practical training from West Berlin Germany. I married a German girl there in 1964, neither her German parents nor my Egyptian parents were in agreement of this marriage. Because of my moral and ethical convictions I did not feel comfortable working in the film industry, so my wife and I started a small antique and handicraft business in Berlin, where our daughter was born. We were quite successful in our endeavor, both my wife and I worked in the store to pay the rent and expense to keep the store going in the beginning, but both of us also worked in other places to help us with our living expense until the store was bringing in enough money to be self-sufficient. Life in Berlin was not much fun because the city was surrounded by the east and we were close to each of our families, who just did not want to let us live in peace. So we decided to immigrate to Canada. I visited Canada alone first in 1966 and was impressed by this country's wide and open spaces and its

friendly people. I returned back to Berlin and came back a year later with my family, where we settled in Vancouver British Columbia. Within a week we bought a house near the Pacific Ocean and started a business, again selling antiques and handicrafts in the downtown core of Vancouver, but I left my wife and daughter there to return to Berlin to attend to our business. For some time we kept both businesses running, but at the end we closed the store in Berlin and just concentrated on our life in Vancouver. We were successful in our business, but life was an uphill struggle. At that time I lost my father, who would have loved to meet my wife and daughter, but I had decided not to go back to Egypt until I could afford to live in Egypt. When our daughter was five we sold our business in Canada for ten percent of its value and prepared ourselves to live in Egypt. We rented an apartment in a higher class neighborhood on the outskirts of Cairo, where we enrolled our daughter in an English Arabic private school and thereby giving her the Egyptian cultural background, the North American and German way of life, combined with three languages, English, German and Arabic. The next few years we spent commuting back and forth from Egypt to Vancouver with stopovers in Germany. She spent the winter months attending the Egyptian school system and the spring and fall months in Canadian school system. This shuttling back and forth went on until she reached sixteen years of age and she spent the last two years of high school in Vancouver, where she finally graduated. She had learned enough from the Arabic language that she could read and write and that was good enough. Before leaving to Egypt I finally realized my dream and became a licensed pilot in the early 70s in Canada and the United States. I took my daughter up in the air flying when she was only three years of age and I was hoping that she might become one day a pilot like me, but she had other dreams. Her only hope was to have her own home, be married and be a mother. When we returned to Canada, we continued to travel together around the world, but also had invested a lot of money in several businesses in Egypt for charitable and ethical purposes. We got cheated out of all our investments in Egypt; we never recovered any penny from our investments. I suffered a heart attack and came back to Canada to have a six by-pass open-heart surgery. I was only forty-seven years old when this occurred. I had a near-death experience right after my surgery and I hated to come back to life, but God had other plans for me. So I founded and established a worldwide charitable organization registered as International Moslem Volunteer Relief Society, for which my wife and I traveled to famine and war-stricken zones only to help the very young children. Our activities spread from Africa, the Middle East to Asia. It was there where we uncovered a whole scam of corruption under the name of The United Nations like UNICEF and other registered charities worldwide. We complained to all world-leaders around the world what we had uncovered, but it seems that everyone just likes the status quo and nothing changed.

Meanwhile in between our relief missions we decided together with my daughter we write the first literal translation of the Koran, a dictionary for every word mentioned in the Koran and also the first alphabetized Index for every word mentioned in the Koran. That work took about ten years to be finalized and was designed to help the non Arabic-speaking people to read the Koran for them selves without the input of any sects in Islam. The three books were distributed free of charge for anyone who asked for it and now can be accessed free of charge by clicking on the internet

website gurantranslate@aol.com.

In 1994 because of my heart problems we bought a house in a mountain retreat in Washington State of the United States, clean air all around us and tall trees seeming to reach the sky. It was too good to be true. We encountered discrimination from the red-necked society in this state, which is rampant against Moslems or anyone different than the local white Washington citizens. "If you an't Dutch, you ain't much" was their slogan. We had nothing but problems, including death threats from unknown people, who claimed to have been in the Gulf war and called me a "sandnigger". The corrupt justice and police system in Washington State and the small Whatcom County did never find out who the people were and who wrote the death threats. We did not find the so-called Freedom or "Human Rights", which are so widely advertised as part of social justice in the United States. This nightmare persisted and led to my second open-heart surgery. Then I started my newsletter, which was written, published and distributed bi-weekly and a portion of it is attached to this book. It is not a miracle that I had my second heart surgery, keeping in mind that we started with a small claims action in Whatcom County and ended in the Supreme Court of the United States, not only the Supreme Court of Washington State, but the ultimate and last Court in the United States, the same court, which decided that George Bush, the younger Bush to become president, but it simply denied my case. The court cases continued for the last nine years and even followed me to Canada to shut me up and silence me for good. Unfortunately for them this backfired on them like most of their dirty affairs. But it made me think about God, the Masons, the political affairs and the anti-God all over the world. It made me think about the big conspiracy and the effort we must all put into finding that One Holy Place.

I am still traveling with my wife and am pursuing my desire to do charity work when ever I can and where ever I can. My hope with this book is that it might open a few eyes to find and establish once and for all the True Sacred House of God. May God have Mercy on us.

Who are the disbelievers, aggressors, debauchers and the corrupt people?

One more time that stupid head of mine with its small brain takes over when I sleep and keeps on dreaming, playing on me tricks, showing me movies where I am an actor. It even feels like a real life experience, sometimes I even see myself sleeping and dreaming in the dream, it is confusing once I awake. Sometimes I remember the dreams, but mostly I do not, sometimes that movie keeps on going one dream after the other, with a continuous free entertainment and with its own control switch, which cannot be disabled, whether there is power or not, I cannot stop it. Thank God my dreams are mostly pleasant ones, of course I am taking a lot of medications for my heart, blood pressure, cholesterol, anxiety, myoclonic seizures, muscle relaxants, sleep disorder medication, and many others.

At my age and condition a daily shower and shaving is a great achievement, In the morning going to the shower is quite a different thing, I am sure that medications have something to do with all this but I am damned if I take them, but worse if I stop taking them.

I always thought when I get older, my life would be easier, and my worries and responsibilities would be less. Instead I found that carrying my old defective body around is more difficult than my life as a young man and worrying about work, and where and what the next meal will be. In spite of all these experiences if I have a choice between my life as a young man, healthy, and my life as an old man, I find myself still confused and I would not be able to choose!

It is funny, but it is the truth and I am sure that there are many people like me out there, at least that is what my doctors tell me, and they should know better!

Anyway I'm trying to convey to you that I can't help thinking, hopefully that might stop after I die! Why am I hoping for that? After dying I am not sure, you see this is another story as I had, what is called a near death experience or after life experience.

That is what happened to me after my first heart surgery and even at that time, that stupid brain of mine was thinking and showing me old re-run movies of my life, which I did not mind, considering my condition with all the pipes and wiring connected to my body. I started with the new heading of who are the disbelievers, aggressors and so on, but that stupid brain took me away somewhere else, but now I must really get back to my old thoughts and I promise I'll try not to stray away again, and only be thinking out loud about the subject of who are those people?

You see according to God's description in His Holy Book/the Koran/the Forkan/the Torah/the Scripture/Moses tablets and the Ten Commandments, they are all one and the same.

First let us translate literally each word of the three words from Arabic to English:

The first word (Al Kaferoon) means the disbelievers, which means not only the ones who are denying God's existence, but also those, who are not accepting and following His commandments in each and every aspect of life. Chapter 5, verse 44,

The second word (Al zalemoon) means the oppressors/the unjust. Again that meaning includes occupying, slaving, abusing in each and every form, cheating, stealing, scheming, skimming, manipulating in goods or books, all movies and or each and every thing, invading, spying, falsifying, defending guilty criminals,

especially by judges and lawyers, who find and use so-called loopholes and or gray areas in their own man-made laws in an arrogant defiance of God's commandments, bombing and killing innocent people for whatever reason legitimate or not, arresting, torturing, detaining and kidnapping. The list goes on and on and on... but I think we got the message look chapter 5, verse, and 45.

The third word (Al Fasekoon): which means the corruptor/desolaters/seducers. Again even though that word is self-explanatory, but it also includes all the above plus all those moviemakers, actors, their writers, directors who makes filthy dirty movies, regardless of the so-called rating of their films.

At this moment I have to pause to thank God, as among other things, I had a diploma in film making from London England and Berlin Germany, I was ignorant, and stupid as I wanted to make decent documentaries as a career, of course it did not work, thank God for that.

Going back to the third Word (Al Fasikoon). It also definitely includes the politics and the politicians, casinos, gambling, bars, alcohol, intoxicants, cigarettes, illicit drugs, their makers and users, their workers, distributors and sellers, be it legal or illegal, according to their man-made laws, their paid judges, lawyers and even doctors and hospitals, who cheat their patients and reject the poor ones, also the price fixers, banks and money-lenders, who control and manipulate the market for people and nations, and above all the armies with their weapons and arms manufactures, inventors, suppliers and users of all weapons etc. The list covers again each and every thing out of God's limits, whether that is between us, our families, our children, friends, nations, enemies or allies alike, even our own selves. Read chapter 5, verse 47.

Who are the conspirators?

Again my small brain is thinking out loud and telling me: go back again to the Book, and then compare it with whatever history they have written for us! Why do I think to compare that? Simply, history has always been written by those who win, especially in the wars during my lifetime. I have seen and witnessed those, who write history and change it many times over and over again. For example in every country, whenever the generals take over the power, the first thing they do, they change the textbooks, and then they write their own version of the previous re-written history. You see it happening every day and suddenly you witness one nation which is living in peace, suddenly turning against itself and is divided into many groups, killing each other for power, bleed and deplete themselves down to self-destruction and divide into many tiny so-called countries. If you want some recent examples:

Remember India, when it became separated into Pakistan and India, with Kashmir being half Pakistani and half Indian, then East and West Pakistan itself went into war, which started first with bows and arrows, swords and knives and ended into two separate countries, where they delivered to the world the newborn starving Bangladesh. Meanwhile India is left to ruin itself with all its different religions, colors, divided races, not to mention the most disgusting cast system. All are still killing each other. Every single day, including today and the days to come, at least thousands of children die from starvation every day, but there is enough money to build and deliver

nuclear bombs and the same goes for Pakistan.

Remember Palestine, which disappeared and now since 1948 we have only their new rottenly spoiled and degradingly indulged baby country Israel with its nuclear bombs, kidnapping, assassinating and killing at will, bombing, demolishing, blowing up, destroying life and infrastructure, imprisoning and detaining people in and out of their houses every second of the day all over the world, not only unchallenged, but also supported by the so-called super-powers and United Nations.

Another example: remember Hejaz which now changed to be Saudi Arabia and lately in the last few years is called: "The Kingdom". Here they call a country after their own family name. Close by are the new countless tiny baby countries such as Dubai, Chargeh, Abu Dhabi, Ras El Khema, Kuwait, Bahrain and the list goes on, just to name a few.

Even England with the phony very old house of Windsor! Very old, I question you and just to give you a small example.

So there is no comparison if you read and watch what they feed us, you become brain washed like them, but better yet a slave to them.

Again the choice is yours and yours alone by either following the devil with them or following the Book, God's Book and be saved.

The Masons

My brain is thinking again and asks the question, who are those, who control the world and the humanity? Who are the conspirators?

It is easy to say the devil, but the devil is only their master. He instructs and leads them to destruction, but again who are they and how do we find them?

It was not easy for me to think and get to a conclusion, until one day they approached me through a high-ranking member of the Free-Masons after I exposed and wrote about the top three corrupt judges in a small community called Whatcom County in the Northwest of Washington State of the United States. At that time, I naively thought, that America is where the root of human rights, freedom and justice is, where all men are equal under the law, all the slogans we all know and hear everyday, so testing the water I went ahead after being absolutely sure of my indisputable right, even under their own man-made laws against my home owners association in the area and as I had studied law for a few years in the Cairo University in Egypt, I put my own Web site on the Internet and called it "The Exposure".

Immediately someone approached me and advised me to stop what I was doing and everything would be corrected. This person said, that they needed someone like me. I would have the best life, with no problems, they would give me what I hoped and wanted to do in my life, even realizing my dream of flying and being a pilot, flying all over, whenever I wanted. I told them that I had already everything I wanted in life and that I was already a licensed pilot in Canada and the United States, that I could buy my own small plane if I wanted to, but that it was too late now with my heart and aching body, all what I was looking for now, was a peaceful and painless end from the Almighty with His blessings.

Then the man said: "we know everything about you, you have founded a charitable

society, called international Moslem Volunteer Relief Society, IMVRS". In short, I said so what? He said we will make it big and achieve a lot, finance the society and spread it out and so on and so on... I asked him "what is the price for all that? Why should you do that for me? Who and what do you mean when you say we and who are we?" He said: "I am the third ranking degree in the Northwest of the Masons organization, we want you to join us, we need one like you, you would enjoy life as you have never known before all over the world, where ever you go whatever you do we are there, we will be looking after you as we do for all our members, our lodges around the world achieve a lot and does everything at the highest level, and I am being sent especially for you." I questioned again "what is the price?" His answer was: "nothing". So I told this man, "my father, God bless him, he is dead now, he died at the door of the Kaaba in Mekka, he had been a very popular simple un-educated man, who lived and died poor, but he gave me a very simple valuable advise, his advise was: "my son do not take anything free because you cannot afford its price, you will find the price very costly. Maybe you cannot afford it." So I asked again, "what is the price?" And he said again, "nothing, only from time to time you might be asked to do something for the organization if that something is in your line and field". There I cut him off and in short, I refused by telling him that I was trying to be a Submitter/Muslim to God, not to anyone else, but he did not take no for an answer and he gave me time to think, I said, "no it is final, I do not sell myself, nobody dead or alive can afford me. He then explained to me a tiny bit about the Masons' organization.

He explained about their charitable activities and what basically every body in the world knows about them, nothing else, but then he added, "the rest you will know after you are sworn in, regardless of your belief or religion." Again I refused, but he did not take no for an answer and he insisted to give me time and came again after two weeks and again I refused and he gave me more time. Every time my answer was the same simple "no, I have everything I need in this life from God's bounty. He blessed me with too much, and most of His blessing is just knowing, that I do not need much, but only His satisfaction and acceptance of me as a submitter and His slave for eternity.

Then he surprised me with the ultimate warning: "you will never win, you will never succeed, we are everywhere, we know everything about you and everyone else, you have no idea what you have lost and will lose in the future." I said that my answer is still no, finally he stopped coming, he was right. I lost and am still fighting and losing against a corrupt system. It has been nine years now and is still ongoing. During that time they tried to destroy me by violating every rule and law in their book and other books. But by God, I am still going on and will continue going on as long as God allows me to. They also spent millions of dollars, money they get easy through their corrupted schemes and especially their evil judges.

But I thought again, and I found, that I already won a big winning and they lost a big loss, I kept my self-respect, and I realized that it was also another test from the Almighty God and I passed it, but the Masons lost, they lost me to join them and being quiet about them, for everything in life has a price and everything is replaceable, except God's satisfaction and His promise of heavenly eternity.

Thanks to God, after that I could not help, but to start looking and researching into

what the Masons are all about, and from that end, my brain told me that I found the beginning and the first link in the chain of the biggest conspiracy in the history of mankind.

How the Mason organization came to existence

My small brain tells me that the truth of the matter is, that nobody knows everything about this Mason organization and their secrets, methods and goals, at least until now.

What the world knows is what they want you to know, like a window front, allegorically speaking. When I come to think about it, even their main lodges do not have windows, because in the old days windows could be watched and looked into, and some things could leak out through openings of windows and also listening could be done through them.

The Mason organization is a huge subject, but my brain is summarizing it as short as possible, after all, with all the secrecy they have developed, no investigation can go deep enough.

I was born in Egypt under the shadow of the pyramid at Giza and left when I was only 18 years old. I realized early on, that if I completed my law studies and became a successful lawyer, I would have had to compromise my morals and ethics. So it was natural for me to spend a lot of time in the desert around the pyramids on the weekends. In high school I majored in Egyptian history, which I confess now I do not believe. In my opinion all I have learned and studied about the pharaoh's civilization and the illogical explanation of how they built this civilization with axes and shovels, bows and arrows is totally lunatic and an illogical explanation and it does not make any sense to me.

My own thinking is, that the pharaohs of ancient Egypt had a civilization with no equal to today's time, why? And my brain's thinking tells me, that since history is always being changed and re-written over and over, so it was then and it is a waste of time to read it. It is false and misleading and for that reason I had to go again and again to Gods' Scripture/Book. The Book tells us, that the pharaoh of Egypt was high and mighty on the earth, look chapter 28, verse 4, the pharaoh and his nation were raising high structures, chapter 7, verse 137, his nation had the most experienced able scientists and the science was so advanced and sophisticated that it looked like magic, so they were called magicians, look chapter 10, verse 97 and 83. The pharaoh could not believe or know that there is a God for the universe. Look chapter 26, verse 23. Instead he believed that he was in fact the only God for his people look chapter 28, verse 38. He went as far as he was the only one to decide what his people should see, do or follow. Read chapter 40, verse 29. He owned everything and imagined that he could do anything and get everything so he ordered his minister Haman to build him a high palace or structure so he could see the reason and cause behind everything. As his power was absolute, all these scientists worked and obeyed him as their God. After all, they had so many gods, so I think one more would not make any difference, mankind always is looking for more gods they can see, feel and touch, they worshipped everything from the cows, snakes, monkeys, dogs, cats, stones even human sexual organs and so on and so on... Until today they worship

everything except the Almighty God, so why not their pharaoh, who could be seen, heard and touched, but also he was very lavishly rich, powerful and arrogant. That fact was mentioned in God's Book 74 times, strangely enough, the human race worshipped everything and still do, except the Lord of the universes.

Pharaoh was a god, but like the rest of the man-made gods could not help himself to do anything. For that he had his people do it for him, if and when ever he wanted. For that of course, he rewarded them, accordingly. Does that not sound familiar with what our rulers, kings and governments do today? By grabbing the scientists from all over and give them a makeover, entice them with money to build destructive weapons and presto we have a proud superpower. Is that not the same old way, except now we added for the superpowers national slogans and big flags, small flags on cars, houses and everywhere, even on the clothes, hats and yes the under-wear to show the pride in their country, even though most of these people do not belong to these nations. They also hate and discriminate against each other, but all are united under the piece of cloth, the flags, which they put everywhere on earth. Oh yes, I forgot the moon and Mars and soon as we can display them all over God's domain, as long as we make our scientists happy and give them what they ask, regardless of the cost for the average guy, who is going to be killed and eliminated as soon as the scientists finish their newest weapons. They are working hard under an other flag, this one will be called enemy for convenience, and they have also other slogans to have a reason so they can go and try out their new very expensive killing toys. Oh sorry I was thinking about my 2 year-old grandson, experimenting with his new toys, but I meant no insult to him. I only meant the sophisticated newly developed weapons, after all they are running out of places to store them and they are getting to be outdated, rusted and rotten, so they have to find someone to either pay for them or they will blow them up, the choice is theirs. They had to see the result and the excitement of their newly developed nuclear toys. So Hiroshima and Nagasaki were hit with nuclear bombs, this action was not meant to terrorize the world and its people, but to experiment on them and which cost only a few hundred thousand lives. And all this was between people, who are now good friends. After all super-powers could not be called terrorists.

The conspirators are working hard and are slicing and making new countries with new and old flags coming up every day and excuse me, that is not their way of black-mailing, it is only good business sense, after all it is a free world. The choice is yours and which way you want to be killed. By paying for it and starve to death or using it on you, you might get lucky losing only your limbs and live longer to experience their next weapon. We cannot complain, as we got a United Nations security club with its exclusive four permanent members to make sure the rest of us have the freedom of choice of our death. Excuse me again, my old brain meant Security Council, not club, I'm really sorry, I think now there are more than four members, because some country became important enough to join the club, I think that were the Chinese, and forgive me not for their number, this is purely business, just because they started being a pain in the butt with their new nuclear power and missiles.

After all, if it were a question of numbers, then they would have to include the Indians too. Then one more and one more, all that would be out of the question, how many **vetoes** could they allow?

Just remind me where I left of; if I remember right, we were talking about the Masons and the pharaohs. Yes, I just found that I am alone with my thoughts. The more we learn, the more stupid we become. In case of pharaoh, I think that as a god and one of the rich ones, he wanted to take whatever he could when he moved on to join the other gods before him and he needed to show off and take his right place in the eternal life. What I meant to say is, that when he died, he had to take with him all he needed for his grand entrance to join the previous dead gods in the eternal life.

The Builders, Scientists, Conspirators

Again I am thinking out loud: So every pharaoh built secret tombs filled with his treasures, the problem was after they sealed the tombs. And those who build them knew their secrets and used to go and steal and rob them later.

Those designers and architects were the cream of the cream of the scientists of the Egyptian and Israeli tribes.

Then the priests came up with an idea! They started burying the builders alive with the dead pharaohs and then they sealed the tombs to keep their secrets intact.

The Pharaoh's Covenant

That created a problem for those scientists, who build the tombs, however they had to be the best in everything, to calculate the position of the stars, magnetic fields, weights, balances and vacuum, as they did not use cement or mortar, cranes, transportation, supply lines, training centers, food and water, light sources, oxygen supply for the deep tunnels underground.

You need only to look at the pyramids and imagine the science to build those enormous structures, and then imagine that they had to die as a matter of loyalty to the so-called king/god! Is this not just like today's dying for the flag or the blood thirsty politicians and arms dealers, generals, dictators, presidents, leaders, war-mongers, kings, who let their soldiers die for the so-called freedom?

Except they were smarter than we are today. They had exactly the same free choice like we have today, to choose how to be killed as a patriot, loyally buried alive with his king, or die at once as unpatriotic traitor for his defiance against his king, who felt that, if they were left alive, they could betray him by telling their relative, or accomplice about the secret before they were buried with their treasures in their tombs.

That created a sort of conspiracy from each side against the other.

Then someone came with the genius idea!

Why not to make a pact, a sort of agreement or covenant, in which the builders will be generously rewarded and swear an oath to keep their secret of the tombs only with them. To reveal anything, would mean a very torturous painful slow death, if they accepted, they also would be a close confidant to the king, queen and the whole royal family of the god king, and that was a win-win deal for both sides.

But that was long before prophet Moses and maybe even prophet Abraham, thousands of years ago, and that is how the strongest most secretive and most powerful, manipulating organization on earth came to existence.

Again my brain is thinking out loud and reminding you that this is not necessarily the way it happened, neither in that order, like a science –fiction (sci-fi).

Through time that organization not only grew, but also took over their masters, namely the kings, who gave them the power and money and position, they played royal family members against each other, just by being close to them, friends, confidants, and advisers. Compare that with today, is that not very similar?

Before long they were the ones, who decided who was to be the king and the government and were enjoying the secrecy, power and money. They perfected their sacred system, and enforced it with the oath of loyalty until death, once you are in, there is no way out, except by death, if you stray you die, no matter how high or mighty you get to be in their ranks.

How the Name Masons came to Existence

This name came from their profession, as they built for their king pharaoh everything. They were scientists who build incredible things. After all Egypt was the master of the old world and their technology was far ahead of the world, maybe even more advanced than our own present civilization. Although the Egyptians spoke a different language than today's language, we called hieroglyphics. The word was translated in to English as Masons, Funk and Wagner dictionaries translated it as "skilled ones in building, to build of or strength, freemasons, Webster's dictionary said more or less the same thing, and that was and is their same name all over the world.

It is hard to believe? Just look at the pyramids, the sphinx and what little is discovered and stolen and shown around the world in museums or hidden in private collections.

Egypt had an abundant wealth during the pharaohs' time and since the wealth was distributed, the people were happy, and when the king decided to be a god, his people worshipped him easily. They had enough and he had too much, so all spent and lived lavishly, they were the first to invent beer. Can you imagine America or Germany or Britain without the Egyptian invention today? Stupidly they did not think in patenting their inventions, they were the first ones to invent make-up, beauty and cosmetic supplies, can any woman in the world live without it in our days? Of course you can think of such items only when you have too much more than what you really need for basic life, but Egypt was anything but basic, and what they wanted they invented, fabricated and built. What they did not have, they simply took from other countries around them, using their power and inventions. Does that sound familiar? Oh yes, now you know, nothing really has changed throughout time.

Zionism and the Masons

After the birth of Judaism and Christianity, some of the leaders, who made their livelihood from the sweat of other people's work, they found the chance, when Christianity became powerful and the church took over the organization in the rich countries, there was a great chance, which the Masons could not afford to leave without exploiting. That chance was materialized by having the two religions fight against each other they could get on top of both sides, by scheming, spying, cheating

and using both sides for the benefit of their secret organization to dominate and consolidate their power and absolute authority. They controlled the money and with the money they controlled the weapons and the arms factories to produce the most sophisticated and advanced methods of killing and both religious leaders would be dreadfully paying top price to get their hands on these weapons.

Of course we cannot forget nor deny, that when Christianity came, Jesus Christ started by destroying the moneylenders market. That market was in the hands of so-called Jews at that time. But Jews they were not, because the Jewish religion did not and does not allow that either. Since both religions did not tolerate the abusive methods to humanity by slaving people and make them lose everything they owned for the price of the money, which was lent to those poor helpless people, they made themselves very unpopular in the community. Judaism and Christianity did not like their deeds and in fact it was considered and continues to be a sin not only in both religions, but also by most, if not all religions, which man practiced on this planet. That put this group of moneylenders in an uncompromising position, the Jews did not like them, and the Christians did not like them, so they were chased away and out of the community. But wherever they went, they established only a foothold to slave their fellow man through lending money for a costly price.

Instead of giving up and changing to accommodate and be good neighbors and accept to live in a society, where the majority of the people wanted to follow a system, which everybody more or less believed in and accepted and which was the only lifestyle to live in at this time and in different countries, whether they were Christians or Jews. Those moneylenders found for them an organization, which would gladly accommodate them with their talent, money, and influence over the people, who needed the money. That organization was the secretive organization called Masons.

And there was a great marriage between very few people who had but one aim in mind and both groups welcomed that new marriage.

Here then the new larger and stronger group obviously could not call themselves Jews, or Christians because both groups were well known and hated and despised by the two well-established religions. They could not fool either one, so they settled for calling themselves Zionist, and here a new name was added to an old scheme.

Zionism

Zionism was born and brought to the world basically by the moneylenders, using usury (Interest on lending money) to consolidate their power over mankind and the world, but for most of the time they kept a low profile doing their dirty work for the Masons. After all, they and the Mason organization became one. There were small problems, just like the price of money, which for example in Germany used to be called Wechsel, which means on the due date of the loan, if that person did not have the money to pay it off, plus the usury fee, everything he owned was confiscated by the lenders. It became an ugly word and is still an ugly word until today. Unfortunately those moneylenders called themselves Jews. By their own doing they have given an ugly name to the Jews in the country, which is mostly, Christians, but they were Jews by name only. Their affairs delivered to most countries, which supposedly believed in

God, a new wave of hatred against the Jews.

In North America however, the profit for money lending was called usury. This word was not popular so instead they called it interest. In yet another instance, they brought with them a fancy expression from France, which I doubt very much that everyone knows its real meaning, because the meaning of that French word is actually more obscene than usury. It seems to my mind and that is still my own thinking; you are free to think what ever you like, anyway my thinking is, that these people were so ignorant on top of their arrogance and their new embellished word was mortgage. That word in actual fact, and please correct me, if I'm wrong, I am very bad in the French language, anyway, but that much I know that mort means death and gage means payment in the French language, so in other words mortgage means the death payment or the payment until death. A funny thing, because most of us keep paying that mortgage until we die, more than that we pass on that death payment to our children, in the hope, that they can own that so-called house or home or business one day, for most of us that day never comes.

You can see, whatever name they call themselves they are one and the same. They are God's enemy for defying His Commandments. On top of all of that and most important off all, they are God's enemy, under the name of Zionism they collected not only the money, which they made from the people, but also they fooled them by saying pay and donate and keep paying to help the creation of Israel, and they proclaimed the projected country named Israel to be located on the land, which was well-known through history old and new, as Palestine. That country was supposed to be a homeland for the Jews, but that country now dismisses Judaism as a way of life, what hypocrisy, why did they scheme using God's name?

Of course everybody who was old enough to live through the so-called Second World War knew about the Belford promise to the Jews for a homeland, after the war the promise became a fact and then we had one new religion to join in on the slaughter field in the name of God. God does not have anything to do with it, but the Masons and Zionists have everything to do with it.

With the creation of that little tiny country, called Israel, the Zionists kept on pouring money weapons from any source they could get their hands on in this place, including enormous amounts of weapons of mass destruction. They used the super-powers of Europe, where they had already their hands on the governments and played them like chess pieces, moved them around, eliminated them, took them out of the game, put them back in, downgraded them, upgraded them, married them to each other, created new countries, sliced them out from old countries and on to other countries. They had the world like a chessboard and playing it at will. I do not need to think and remind you with little examples like Tangier, Gibraltar, and the most ridiculous example of Berlin, where I had the misfortune or maybe the good fortune to live. I really do not know if it was good or bad, because on one hand it was so ridiculous that it was divided into four sectors, one for the French, one for the British, one for the Americans and the last but not least, was for the Russians. In this small city of course, there was a wall in between parts of the city and that wall went through houses, where one room of the house belonged to the West, depending on which sector that house with its unlucky people were in; and the other room or the next wall of the same room was in the East and that is where East Germany and West

Germany were created by the same bastards, who played the world against each other. Many of us remember some of the German people jumping over the walls to join their families and being killed or electrocuted, or even sometimes shredded by well-trained dogs. That is why I was saying unfortunate for me to live and study for some years of my life there, but the fortunate part of it, as far as I am concerned was, that is where I met my wife. From that time on, it was a very hard struggle in life by trying to make two families in different parts of the world understand, that there is nothing wrong for me, who was born in Egypt to marry a woman, who happened to be born in Germany. For my family it was not easy, and for her family it was even more difficult, as she came from a fairly well to do family who were mostly radically German. Eventually we made it in life against both families' will, who never could understand it until the end of their lives. Today we are about 40 years married, thank God. Excuse me, like I said before, my small brain keeps on straying away, you see I can not help, how that little thing in my head keeps on thinking, but I got to admit that these few lines were pleasant ones to remember.

I was thinking loud about how ridiculous they divided and sliced human lives after the so-called the Second World War, if you remember that they could not even count but more likely that they didn't want us to keep track of all these killing fields by giving them different names and different numbers, and we stupidly fell for it, and even studied it and it became a fact of our life, how stupid are we to believe them?

But God taught us that there is nothing ever lasting. Everything in this life comes to an end and He is the only One, The Everlasting. If they keep it in the head and if we do keep it in our head, we might just come to understand that it is not worth to kill or to hate for that short time we are here, but I do not think, that they believe that they will be here for short time. They will probably, according to their understanding, be back, re-incarnated. Hopefully the next time they will be fleas or something even worse. But why should I care, if they can come back, by all means let them be, as long as I am not going to be around and that is my belief or I better say that is my thinking, because the way it is going now you could be kidnapped, detained, tortured, and if you are lucky you will get killed for your belief. So I am just trying to protect myself by thinking out loud and even that I am not sure, that it will be acceptable to them. You see in the near future, nobody will be allowed to think, thinking can be not only hazardous to your health and your life, but it is dangerous for their planning. They did not say it openly yet, but I can assure you that it will be implemented when the time is right for them to put it in the books and it becomes law.

Anyway I was thinking about how did they create that little monster called Israel and poured in it so many weapons, arms, and above all nuclear bombs, probably enough nuclear bombs to wipe off the entire life, not only in the Middle East but in the whole world. You can see the last count they gave us was somewhere between 500 to many thousands, but who really knows the truth. I do not really know how these people think, other than keep everybody terrified and in line as a slave for them, because even my little brain tells me anybody, who tries to explode one of these bombs, especially in that area, should know that it is the end of life the way we know it. He himself will be one of those if not everybody on the planet to go. Life cannot exist after that explosion probably for hundreds of years, so I wish somebody told me, what in the hell are they are thinking? What ever happened to co-existence, what

happened to live and let live? If they are evil and worship the devil, what happened to the rest of us? Have we all lost our minds? Have we all gone crazy? Or are we all naturally stupid? I wish someone told me, because I for one, for sure, do not want to be one of the above.

After the Second World War, the Masons and the Zionists became more powerful than anything this earth has ever known, they kept their secrets, but they brought their agenda out in the open, we did talk, again I forgot what I meant, I was thinking out loud about their agenda before. They brought and made every known and unknown sin, moral filth and corruption right in the open and they made it legal in the books. Morality went down the drain. Instead we have what they called the sexual revolution. We all know it became free sex for all. Young, old, even children, adultery, fornication, prostitution, alcohol, drugs, all day and all night nightclubs, girlfriend, boyfriend with open sex, in cars, movie houses, underground, over ground, on the ground and all over the ground, shamelessly, even in the streets and the doorsteps, homosexuality, bisexuality, sex with animals, sadistic sexuality, brothels, call girls, call boys, male prostitutes, female prostitutes, group sex, wife-swapping, and sons and daughter-swapping, 24 hours X-rated movie houses and video stores, adult pornography, child pornography. Forgive me, sex with children they made legal with consent from the age of 14. You see I do not want my thinking to be wrong. The law says under 14 it is not legal, unless it is between each other and they are all under 14, but over 14 as long as they are consenting, it is legal just like consenting adults, God has nothing to do with it, He has His law and the courts have their own man-made anti-God laws, which are very well enforced and believe me, they know how to enforce their own rules. Do not forget the massage parlors, phone in companions by the hour or the minute or escort-service. It is all your choice, casinos and arcades, lap-dancing, strip-tease performed by women and men and above all we should not miss out on the high-priced so-called movie stars men and women, prostituting themselves on the screen for the right price, the corruption reached a level beyond anybody's wildest imagination.

Spying became not only legitimate, but also became a very highly respected profession and every country in the world must have a spy agency, with it came what they called covert operations. You see, killing and assassination are bad words, but if you put them under the slogan of covert operations they become something legitimate and to be proud of and brag and make movies about. Those bastards, who carry out these activities, suddenly become not only heroes, but the idols for young people to look up to and hopefully fall in their footsteps. They even gave it a very nice name, they called it intelligence service, and really how stupid do you have to be to join! Sorry, you cannot join them by yourself, but you have to be chosen. So really how stupid you got to be to be that privileged and become one of these heroes. Of course with that come lots of benefits. After all, you become a very loyal slave, but you might get lucky and become famous! You might even get lucky and become a politician, president or world leader and obedient slave, never questioning, but only following orders from above. Of course you have to be well-trained in cheating, lying, deceiving, scheming, stealing, discreetly of course and you might even be called your Honor or your Highness, your Excellency, your Majesty, your Lordship, who knows you might even called your Holiness, wouldn't that be great!

As if all that was not enough, they went ahead and created what they called the sin city of Las Vegas, then it became the sin State of Nevada and suddenly every State wanted to have at least one sin city so they branched out, but the demand was great and every city wanted to have its own casino.

That experiment was a tremendous success in the United States, and since the United States after the second world war became one of the two superpowers and later on the became the only one. It was very obvious to have it as the main center for the grand lodge of the grand Mason/Zionist organization, and it became the logical capital, from where the orders come down to the president and government of the United States of America, who is also called the leader of the so-called free world. From there it goes down to the other puppets, each one in his own country.

And that is how America became the devil's den and where the corruption affairs are created then distributed around the planet, including those countries, who call themselves Moslem countries or Christian countries, they even went and patented all their evil deeds and made sure that nobody can copy them and all the distribution should be done and authorized by them only.

Unfortunately all these affairs go against the teachings of Gods' Book, hence they could not tolerate leaving those who believe in God to continue living alone, and gradually life for those, who are living as submitters became hard and harder by the passing of time and lately it became practically impossible. Only God knows how it will go from here.

In any case what is sure and indisputable, is, that whatever the Masons and or the Zionists scheme, plan or do, has nothing to do with God's religion. So as we have established before, the religion at God is One, and it is submission to Him alone. No submitter, who worships God alone will steal, kidnap, trade or abuse human beings, he or she cannot own slaves, sell, torture or imprison anyone, humans or even animals.

But we do know that there are few of us, who are warmongers and used slaves, kidnapped innocent people from their homelands in Africa and other places and then sold them and traded them, killed them, abused them and in particular acted like gods. They could do whatever they wanted or imagined with those human beings, who were traded and owned as slaves.

We all know that the forefathers of the American people came to North America escaping prosecution and persecution from Europe and other places, so they came to seek refuge to live and work and worship the Lord alone. For the most part they did, with the exception of a few, who were and still are namelessly hiding behind that secret organization. No decent person in the world would destroy or ruin other people's simple life, by confiscating or foreclosing their properties as a result of gauging usury, which they called interest or mortgage. The banking system, which they created, was tailored and suited to serve their new world order. We all have seen how they mistreated our forefathers, who came early in time to North America to work at the land very hard, just to sustain their livelihoods. Mostly these wicked people and their lending schemes took them for a ride. A believer would not do that to anyone, no matter what that person called him or herself, be it a Jew, Christian, Moslem, Buddhist, Hind. Not a believer, even if he did not believe, would do such a thing. Anybody who had any self-respect at all, would not be doing such despicable

deeds for man or beast, just for the lust of having more money and with it more power.

I am sure that you all remember the shameless act of killing in the Persian Gulf, when American warship knowingly and intentionally shot down an Iranian civilian passenger plane, loaded with innocent people. We have seen, how these killers were cheering, laughing and clapping very happily after they downed this aircraft. I do not think that they knew that everybody on the plane was dead. This kind of fleas, I cannot even call them fleas, because even fleas do not harm people just for the pleasure off it, but those evil nameless evil worshippers did just that. As a matter-of-fact we did not hear about any compensation or re-imbusement or even making good for that evil deed they did. But you hear about the Pan American Lockerbie air disaster and the billions of dollars they got from Libya, not to mention the embargo imposed on an entire nation, which had nothing to do with the disaster.

Why was no compensation ever paid for the loss of life and the Iranian aircraft? You can see, that there are different prices for different human beings. That price is based on the human classification, according to their belief, race or color. What hypocrisy! More despicable is to enforce embargos on an entire nation and enjoy watching innocent children and adults alike, dying of diseases and starvation as a result of the embargo on food and medicine. Ironically those embargos are sanctions by the so-called **United Nations** and its Security Council. (You see how united they are and what their objective is.) Do they really believe in God? How would they explain themselves to Him?

In comparison, the United States orders, demands and carries out expeditions, kidnapping and assassinating anyone they do not like anywhere or bring them to the United States to face a fabricated trial. What kind of hypocrisy is that?

Nobody, even the most stupid idiot can convince me, that an entire nation has to suffer for someone or something, which happened to someone else, somewhere else. But these monsters, the anti- God governments have embargoes everywhere in the world. I just like to mention a few: Cuba, Iraq, Libya, North Korea, supposedly to punish some person or individual, who they did not like and with it the entire nation. How can anybody justify tens of years of suffering and torture for nations, who ever they are and not one of them did a bad act. I wish they could explain to me, what the difference is between a man, woman or a child who just happened to be in a plane, which is carrying an Iranian flag and a similar person or people who where on a similar plane carrying a European or American flag?

Why should one person have a value of over billions of dollars and the other has no value whatsoever?

Why should tens of thousands of Indians, who were killed or scarred for life as a result of leaking, poison cyanide and other gases, which were released by an American owned huge company? This very rich and influential company called Union Carbide made thousands of Indian nationals suffer without ever receiving any compensation for their torment. Those Indians are still being ignored after more than 20 years without any compensation, and worse, the American government does not want to hand over those killers or mass-murderers to face justice. They did not even bring them to face justice in their own homeland with their own courts in the United States, not to mention the Indian courts and until today they are left to continue to

thrive without any punishment. The survivors are left with their misery without any compensation or regard to the lives lost or their livelihood.

Is it in the eyes of those American slaves, who rule and govern the United States, by following the orders of the Masons Masters, is it in their eyes or do they really have the understanding, that a white person has more value than thousands of similar darker skinned Indians, or just because the mass murderers are also Masons and as such they are protected and over and above the law of God and even man?

My brain as little as it is, keeps remembering and reminding me about the dictator of Iran, who called himself the Shah or Shahenshah and who made himself an emperor. Of course he did this after taking permission from the great Masons, by stealing the poor people's money and wealth, transferred it into gold and took the billions of dollars to hide them in the banks in the United States of America, where it is until today, and the American government refuses to hand it over to the rightful owners. In the same time they collected from the Germans and the Swiss banks and companies billions and billions of dollars as compensation for Israel and the Israelis, the country which was not existing until they created it and was only brought to existence after the so-called second world war and since then they kept pouring money in to sustain that illegitimate deed of theirs.

I wish you can explain to my little brain and to the world why and what is the reason behind the double or multiple standards. Of course we do not even have to think about the Marcos family, from The Philippines, which was also squandering their poor people's money, collecting billions of dollars and then taking refuge with these billions and hide behind the American government, with its blessing and protection. We can keep on going, but it is useless. Anybody who has a little brain smaller or bigger than mine cannot forget all these facts. The examples are so many and countless to list, mind you, that is only what we came to know about, or what we were allowed to hear about with the permission of the Masons/Zionists and their blessing. The forefathers of America, who build that land with their own bare hands and sweat could not and would not have allowed this mockery to take place. Unfortunately those devils and monsters hiding behind the strong Mason organization have hijacked America and the world.

It is my duty and yours to educate und remind the American people, especially those of them, who believe and worship the One and only God, about what is going on in their own homeland and in their names, knowingly or unknowingly. I am tempted to think unknowingly, as the entire news media is controlled by the same organization and they keep on repeating and repeating and pouring in it their own agenda, and their **new world order**, to convince and brainwash everybody and follow them without thinking. That is why my brain is telling me that very soon, I will not be allowed to think and that is not a joke, the joke has already happened to humanity, long ago, and now the entire world population is paying the price. The only way to get out of this dilemma is to submit to the Almighty, the One and only Lord of the universes with its solar systems, Whether we like it or not, agree with it or not, that is our only way of salvation and I, by having lived long enough and suffered long enough under the corrupted manipulated and phoney justice system of America and where of course I came out as a loser, but thanks to God with my self-respect intact and my dignity and my belief stronger than before. I recognize and know that it is my

duty to inform those, who want to know the truth.

The truth and the fact is, that the American people are no different than any other people in this world. If they are exposed to the truth, they will not accept what happened to them and the rest of the world, because there is no real difference or any difference what so ever between any people on this planet. The only difference and exception in front of God between one and the other is their believe and their deeds in this life. May God bless us with His guidance!

The System and its Recruiters

On the top of the system structure was and is the power of the watching eye of the Masons. To grow, they needed more eyes to ensure their secret power to continue and be forever, so they watched and looked into every country to take new young loyal recruits, starting with the police and armed forces around the world. Then they branched out in every profession and skills and they made their recruits into ranks like the army and they called it degrees. The last I heard, when they sent one of the top ranking members to me to entice me to join them, they were seventy-five ranks or degrees, now I hear they maybe over a hundred plus, but who knows?

The higher ranks are given to those, who choose the kings, presidents, rulers and leaders around the world. Then those, who choose the prime minister's, the party leaders, the politicians, the judges, the army and police top generals around the world, and I say choose because you cannot join them, but you are chosen by them, to belong to them.

Someone would say what about the democracy and elections, justice systems, at least in the west? I say, oh yes, what about it?

Try to get involved with the system, if you can. See how far will you get? Then if you did not sell yourself and your principles during the time, you come and tell me how did you do it.

They became the living gods, watching, listening, recording everyone on the planet earth, they became the crown jewel of achievements of the devil, carrying out his work, what the Christians call the anti-Christ, and what I call the anti-God, showing and using the power and technology openly and secretly.

They and their puppets are the conspirators. They started very early in time thousands of years ago, and they believed they are the perfect unstoppable power on earth with a total domination agenda of the planet.

Of course they do not believe in God, but they tell their members you can have any religion, as long as your first and last loyalty is to us.

They even made their own Bible and I will prove that to you later on.

The Conspirators' Power Consolidation

If you still remember the ones who started the Freemasons were the Israelites and the Egyptians long before God's prophets Moses and Abraham, long before Judaism, Christianity, and Islam, and until today the Israelites alone control it.

In the old times, when they were young, small and totally unknown, they played the royal families against each other, but in the recent history, they played countries

against each other, remember Carl Marx? The man, who invented communism, was he not an Israelite, who called himself, or better yet, they called him, a Jew!

How could Judaism fit in and be cozy was communism?

Nevertheless what God's prophets could not do, amazingly his idea divided the world into two camps west and east, only in a very short record time in the history of mankind.

We all know how both camps fought and killed each other in countless wars, with undercover covert operations as they so called it, coupled in with other kinds of wars, one was called the cold war, the other must have been the hot one, unfortunately they did not tell us which one was more deadly than the other, the freezing one, sorry I meant the cold one or the hot one! And these wars, the secret and open wars kept on-going one after the other, you know the big one, actually I meant the other big one, you must know the one they called the Second World War, you know I'm really getting confused, and pissed off with those conspirators!

Either they cannot count or we all are idiots to believe their counting, you want to tell me we as a world we had only two wars, nothing in between, nothing before or even after, then how do we count at least the cold and the hot ones? If we had only two, we must all have been sleeping during the rest of them.

They successfully played the world against each other, communists against capitalists, as if there is a real difference in the ideology. In both cases we otherwise know them as governments, who take what you have. The communists right openly in the beginning, the capitalists let you make the money, then count it, look at it, and then they take it, they call it taxes to protect you from the communists. The communists already ripped off their own people, so they have to protect them against the capitalists. Now can you understand, you get the idea? But wait, still Christians had to kill Jews, why? Because the Jews are still waiting for the real Messiah to come, they did not like the one who already came, may be he was not good-looking, but the Christians with the support of the Church promised them that he would come back and he would get even with the Jews. If you do not believe that, ask the Moslems, the mullahs will confirm that the Messiah is still coming.

Meanwhile the conspirators cooked up some other wars to give the Jews a little time off to prepare for killing the Palestinians, so they put what they called Protestant into wars against the Catholics, and the countless sects in each and every religion which they invented, including in Islam, sects against each other, but they did not forget to make the whites kill the blacks, and all the other colors in our technicolor world, yellows, brown's, short and tall etc.

But they always had everybody put on a short leash after taming and training all the puppet leaders, hard to believe? That's exactly what I also thought. Remember from the beginning I have been saying I am only thinking out loud.

Of course I am allowed to think, that is to say until they make a new law, banning the thinking too and make it illegal and punishable by probably death. Or maybe they would be more lenient and take your brain off then they can allow you to live and think freely.

For now at least I think it is still legal in my area where I live, but I am not really sure about that either, and herewith I am releasing myself from all responsibilities you might encounter if you think, you should better check with your local authority first

before thinking.

Having warned every body in advance, I just remembered what happened in around 1989 to the Vatican banker, the so called God's banker, who was about to spell out some of what he knew about their secrets and financial affairs. Apparently there was a scandal and they had to find a scapegoat and it just happened, that he was the unlucky one when he did not listen and obey to take the blame. Apparently they committed him a suicide, sorry I meant he committed suicide...

Forgive me you must have noticed my English is not good; after all it is not my mother language. It is the second, the third or the fourth language; I do not really remember I am too old for that. Any way, he was found hanging at the end of a robe tied to a bridge in London, amazingly wearing an overcoat, in each one of his pockets a full sized brick. You know the man must have been a health freak, because I think it was summer, so he must have been afraid to catch a cold, while he was swinging from the bridge. But also he must have wanted to tell the world something about his personality. For one thing he liked to be in the picture, that is why he went out of his way to find a robe, strong enough to carry him and his two mason bricks, one in each pocket. I guess as a banker he must have been thinking about balancing his weight, instead of just jumping in the water or other methods to kill himself. But hey, if you want to be in the picture, that is the way to go, and he must also have liked the tourists and the exposure of the media and for that purpose he chose London with the bridge. They must have wanted to give us a message about the power and the weight of the Mason bricks. You must give them, sorry again, him, credit for that. What a way to go, at least the whole world heard about him and got the message.

And who can forget the Canadian scientist, called Dr. Gerald Bull, who in the late 1980s was building for the Americans what they called a super gun. They and the Israelis hired him to build for them the long range guns and it what was known as the Harper Program. They forgot that that an ocean was separating them from their natural enemies and that they were too far away from the killing fields and there was no way they could have a gun with 5000 to 10,000 miles range. So after they realized, they wasted so many millions or billions of dollars, so they allowed him to sell himself and his expertise to Iraq. Of course at that time they were keeping Iraq and Iran busy killing each other. They were supporting the Iraqis and the other side was supporting the Iranians, except when they found out, that Iraqi guns could reach Tel Aviv instead of reaching Iran. Iraq and Iran kept on bleeding each other for more than 10 years. In the meantime the American side and the Russian side were both enjoying selling their scrap war toys for the very lucrative and expensive oil. As the killing field kept on growing, both nations did not realize that they had been slaved by the hidden and secret agenda of the conspirators until both of them were drained out of their resources and realized, that they had been taken for a ride, a long bloody ride. During that time both countries ran out of young men as fuel to burn in the killing fields, so they decided to make peace with each other and stop their wars.

And that is when the Masons got worried that the super gun, built by Dr. Bull and his team in Iraq could be aimed at Israel and that could spell a disaster and obstacle to their agenda and their New World Order. At that time they changed the name from super gun to dooms day gun, and for that reason they had to find an excuse to destroy Iraq and that gun. The entire world witnessed the mockery and the excuse of

the Gulf war and the subsequent 13 years of embargo against the Iraqi people. They deprived them of all basic needs of life. They starved them and killed millions of children by depriving them of basic medicine, ironically followed up by yet another dirty war, which again wiped off all infrastructure in Iraq and killing hundreds of thousands of people. They did it in the name of the most despicable lies; deceitful schemes, falsehood and deception by telling the world that Iraq had weapons of mass destruction (WMD), which could be used within 45 minutes. It later became known as weapons of mass deception. Ironically these weapons are still massively piled up by the Americans, Israel and their allies. What shameless bastards is the human race, here no one speaks about compensating the Iraqis for their losing their loved ones, their property and their livelihood. How dare they say "In God We Trust", unless their God is Satan and the Freemasons?

Meanwhile the conspirators with their hidden and open long hands knew that they made a mistake, by having that scientist and his assistants sell themselves to Iraq. Iraq came out of the war with more firepower than they ever had before, foremost were the big guns, which could reach Israel. They changed the name from super gun to dooms day gun. The missiles, which we found out later, actually reached Israel for the first time in the short history ever since that baby was adopted by the Western Masters to be used as their own hammer in the Middle East.

This mistake of course had to be corrected. So the order was given to the scientist to stop selling himself and his service, but the money he received from Iraq was good, so good in fact, so that he could not resist and he refused.

What happened next, was told openly and arrogantly to the whole world and the news media, and what was said that, the Israeli Secret Service called Mossad successfully assassinated him in the street of one of the major European cities. The case was closed, no body got arrested, and everybody lived happily ever after.

So you see, in this announcement and declaration they admitted, that the Israelis, not the Jews killed him, even though Israel is supposed to be a Jewish State, but it is not, thank God for that. A good Jew cannot and would not be a conspirator. A good Jew, who believes in God alone as his Lord, will not accept to serve the devil; you see a person who believes in God can only serve the one master.

So when they told the world, that the Israelis assassinated Dr. Bull, they made it clear, that the servants and slaves of the master conspirators did it, not those, who serve their Lord, because the conspirators have no God, in fact they are His biggest enemy and they are behind every evil, horrifying calamity, which takes place in our world, since the Freemason organization came into existence with their hidden agenda of total domination of our planet, which is designed only to serve them.

Another funny story, which we all lived to see and witness, is, that of the drunken idiot of Russia, Boris Yeltsin, who came from nowhere suddenly to become the president of the USSR, as if the Russian union at that time had no-one better to offer. In a so-called semi blood less coup he was handed the key to the Russian empire, but in the same time the West peacefully accepted the little on-going wars in the old USSR.

I cannot list all the numerous recent strange phenomena, which took place in the last few years, but I just like to mention the man, who we all came to know all so sudden and who always was in front of our eyes on the TV screen and in our ears blowing out his name in every occasion, just to ensure that we know who he was. That man if

you remember his name was Les Valencia, the Polish electrician, who was also suddenly made famous and who was visited in his room by the American president and was presented a car from America. Polish cars are not good enough to drive, especially by a man, who was made to be the next future president of Poland. Later on we suddenly found him to be the first so called free elected president of Poland.

Who also can forget the so-called general Manuel Noryega, the bisexual ex-president of Panama, who was paid a monthly pay-off to serve the masters of the old George Bush, long before he became a slave master, working for the CIA as a station-manager in Panama and as a obedient servant. He used to give orders to the junior slave Noryega in Panama. This is not a speculation but the truth, which registered in my brain while seeing a report on T.V. and in the news media and which was released by the U.S. government.

And who possibly can forget the infamous president Marcos, the pimp for the American army, who with his wife Imelda, a saloon singer, were supplying the American soldiers with girls. They later became the President and First Lady of The Philippines. Imelda, became famous with her 2000 pairs of shoes, just to mention very few incidents from our recent history. I do not have to mention what happens daily all over Africa and South America. Can all these happenings be co-incidents?

No way, all these people have been used then disposed of as soon as the orders come down from the high lodges that those people became a liability.

The declassified evidences of the Freemasons

Still, after all the facts, we all lived through in recent times, it is hard to believe that a very few people like the Grand Mason and his inner circle runs the world like a cattle ranch, or sheep herd with dogs keeping them in line. But unfortunately that is the despicable sad truth, I am sure through time some people tried to write what they knew, but that could not be tolerated, some were paid very high prices to sell their copy- rights, so their writing never sees the light of the day, others were simply silenced one way or the other.

And I know that I am no exception, but heck with it, I had enough from this life any way. Someone tried to kill me, other times, others continued breaking into in my house in the mountains in Washington States in U.S.A, stealing and vandalizing it. I had mentioned before the little county called Watcom County, with its corrupt judges, courts, and police departments. But I have to give them the credit they deserve, here and now, I have to admit that they had warned me many times before, they even went ahead and wrote me death and threat letters, sent from one country to the other. I stupidly did not try to touch them, so that the FBI could not tell me that I contaminated the evidence. Of course, what did I expect, they did their duty as they normally do in such cases (races) like mine, namely nothing. Those morons do not believe that God has his own timing for everyone and everything, no matter what all mankind tries to do. When my time comes, no one can stop it, prevent it or even advance or delay it a flash of a second. So why should I worry?

Their attempts to threaten me, kill me, destroy me or simply silence me, did not and will not deter me a bit and I will continue my own thinking as I always do, but I leave

this to the last chapter, where I will add one copy of my newsletter, which I published and distributed of course after writing to the local Freemason lodge and received no answer. But I leave that to the end, if anyone is interested to see how things go on in the real life on the ground of the great USA. If you do not want to go through it, you do not have to be bothered by reading the last chapter under the heading of the Exposure. It would not do you any good anyway, but it will give you a very clear and accurate account of how corruption is not only random, but very common, openly and arrogantly, supported by most if not all members of the black robed cult, called judges in the United States of America, down from the smallest district courts to the highest court, namely the Supreme Court of the United States. That is not say, that other countries are exempt or less corrupted, on the contrary corruption is rampant all over the world, supported and sanctioned by the NEW WORLD ORDER and the grand masons, again that is my own little brain doing its own thinking. It would be nice, if they came out in the open and prove if my thinking is right or wrong. You will find all my court case numbers listed below and is supposed to be open public information.

The Masonic Bible

As sure as the sun came out this morning and will set down in the evening, everybody must have seen both George Bushes in their swearing in ceremonies for their presidency. Both were swearing on the Masonic Bible! Yes they do have their own organization's Bible, the same Bible, which previous presidents before them like George Washington asked and insisted to swear their oath on, the Church's bible is not good enough for them, after all once a Mason, always a Mason until death do them part. Obedience and loyalty are not a matter of choice, whether you like it or not, once you're committed you are committed. Unfortunately for the rest of us we are stuck with them and will continue to be stuck with them until we decide to follow Gods' Book, and find His, Holy Place/Mosque/Sanctuary, so we can be saved by Him or be doomed with the devil and his conspirators.

Remember the old Bush saying there is a **New World Order!** Yes he kept on repeating this slogan over and over again, in every chance he could.

The younger Bush is saying the same thing this time, but he added to it, you either are with us or against us, nothing is in between. The world had the ultimatum delivered to mankind through one of the obedient lowly, loyal slaves, be it our slave or our enemy, that choice is given, live as a slave or die as their enemy no matter where you are, they will get you.

THE CONSPIRATORS' AGENDA AND ISLAM (SUBMISSION)

In this chapter my little brain which keeps on thinking and summarized for me the conspiracy, which is the biggest, the largest in mankind's history of life and that is the total elimination of the word of God and those who worship Him alone. After they achieved the downfall of communism, the only enemy they feared and could not

eliminate is the religion of Islam (Submission to God), but they are working on under many slogans. They all add up to the same thing. Yet by their own admission, the fastest growing religion on the planet, which is Submission (Islam) Submission is the religion of Abraham and prophet Moses and Jesus and Mohamed, whether we like it or admit it or not. Submission is an English translation for the Arabic word Islam, just like the English word God is a translation for Allah from the Arabic language. All the idiots around the world and I mean it, as I am one of them, educated and illiterate alike, they speak English, some of them speak excellent English, but when it comes to the word God and Submission, they have to stick to the words Allah and Islam. Why are they doing that? I do not know. But I think it is an insult to God and His religion. It gives the other idiots, who do not believe, the impression that their God is God and our God is Allah and both are different from each other. God forgives those, who do things out of ignorance, but I pray for everybody to get the message and enforce the One and only God when we speak in English.

It is God and His Book Religion/Submission/ Islam; He is the ultimate supreme power and authority all over the universes. Even though they already blemished and have hidden the truth about God's House/Holy/Sanctuary/Mosque and they thought, that they got away with it, and now they are at the last step in their secret agenda, which is the full domination, control, and slavery of the world with no God, no power, but theirs alone with what they call the New World Order.

But that little brain inside my head keeps on thinking and telling me, by God, I am going to prove it to you in the next paragraph.

Here is another one of the indisputable absolute facts and hand held material evidence you cannot deny.

The U.S. One Dollar bill

My brain told me, if you do not have an American one dollar bill, go get a picture of it and look at it. (enlarged photocopy attached) On the face of it, is another famous Mason called George. This time he was George Washington, just if you're keeping track of them. By now we must know that there are at least three Georges, who were and still are loyal slaves or puppets and were well-trained and obedient on a short leash. Turn over to the back of any one dollar bill, on the left side there is a circle. On the bottom of the circle are the written words:" The Great Seal", in the middle of the circle is the picture of the great pyramid with its triangle top as a shining sun, with a large watching eye filling it. Under the pyramid are the written words in Latin NOVUS ORDO SECLORUM. As I do not know Latin, I asked my wife because she knows a little bit of this language. She translated it as The New Secular World Order, but I interpreted it as the new order in a godless world. By now we must know where the Georges got their slogans from! Of course enforced by the most godless super power and we all know who they are.

On the top of the pyramid written again in Latin ANNUIT COEPTIS and on the pyramid itself unknown written letters, which I could not even read by using a magnifying glass, nor could I establish what kind of language it is. Maybe Hieroglyphics/ Egyptian language, copied from some where from their secrets.

On the right side it shows the American government seal with the eagle, in his peak

what looks like two flying strips again with some writing EPLURIBUS on top of the left-wing and on top of the right wing UNUM.

But on the top few tiny stars in the form of the Star of David, which made me wonder what the Star of David has got to do with the United States of America. The Star of David is the symbol and on the flag of the Israel and the great pyramid is one of the seven world wonders, which is well known to represent Egypt. What has this symbol in common with the United States? Is that purely coincidence? No way, it cannot be. Amazingly in the middle of all of that is written in a small letters "In God we trust"! The surprise is what is on that seal with the pyramid, particularly in a Godless nation, which already got the new world order from a secret organization.

The Great Seal

We know the American seal, but what is the Great Seal for representing? If the Americans have already a seal and they are the only superpower left on the planet, then why do they have that greater seal? To seal what? Why should the United States of America have the pyramid on their dollar bill, which is undisputedly the most circulated single currency note in the world and why the watching eye? Watching whom, why or what?

And my last question is, what have all these things got to do with United States of America?

It all came from Egypt and all things came with the Israelites. Let us look at the Bible, the Koran and the Torah and we will find that the Israelites worshipped the golden cow in spite of all what God had blessed them with, they did not thank Him nor did they appreciate His blessings. Instead they collected their gold and built an ox from it and worshipped that. You see again they are builders, they are artists, accept their agenda was and is always a total domination and a total control of the world economy and the total elimination of God's commandments and to control the gold, as it represents the power over the planet. They make the laws and they are the first ones to break them. They can do that and get away with it, because they are also the enforcer and interpreter of its strange and complicated legal, manipulative and interchangeable language.

Just remember that in the month of September 2003, the Supreme Court of the Alabama State unanimously ordered a stone, which had been originally been placed by chief judge Roy Moore and which displayed the Ten Commandments, was to be taken from the entrance of the court and kept in a windowless hidden basement out of the view of human eyes. Further more, they arrogantly stated that God has no business in the Courts and the American government. They were hoping that that 'out of sight means out of mind', in a lowly, blatantly arrogant and disgraceful attempt to challenge the Almighty God. On November 3, 03 Judge Roy Moore was fired and now as a punishment they are working on disbaring him altogether.

The Freemasons are not only one organization, but they also branched out into others like the 'Skull and Bones' and many other secret organizations, but all have to answer to the grand lodge.

But no matter how much they did their surveillance, by taping, recording, listening in on people and watching and recording them from earth and via satellite and how

much they schemed, played their games, designed, planned, infiltrated, manipulated, added, subtracted, committed, drained, built, destroyed, exploded, blew up, imploded and blemished, they still could not defeat the Almighty God and His religion of Submission (Islam), whether they believe in Him or not and whether they like Him or not. At the end, they are definitely doomed.

In spite of all this, what they could not notice or help, is written on that single one dollar bill: God's Name, as He is the only One appearing across the bill. Look at it again, and you will find the largest letters on that one dollar bill are the word ONE. That was not their work, no one could help it, but they had to write it as the value of that single dollar bill. This is the numerical number of God, as the only One, thanks to Him. He made His name and His formula appear on the undisputedly, most circulated currency note in the world.

I got to admit, what I am going to say right now, was not my thinking I did not intend to think it. It just happened when I looked at the letters, I remembered the beginning of this study, the first few pages under the heading, The formula is One, but if you look at it right now, it does make great sense and that no matter how much anyone tries to scheme, cheat or change the fact of God, He always will be clear and outshining everything. I just wanted to share this with you, because I myself did not believe it, until I went back to my references and documents and I checked my previous notes and drafts. Then I had no choice but to pray again and say it out loud, not only thinking it, but also proudly screaming it out loud and with it I thank the Almighty, the One and only God.

The New World Order

Today we are at the end of the year 2003 and we recognize the nations, who used nuclear bombs and nerve gases to kill animals and plants and which will never come back. It is ironic that the same nations go and take matters into their hands and declare the United Nations irrelevant. But that is exactly what the younger Bush did and then he asked the United Nations to help him in his phony, illegitimate self-serving war against Iraq, thereby helping him self and his clan and masters. It is ironic, that those people are the same ones, who used nerve gas and nuclear bombs. But now they are calling any country or their leaders, who do not come in line with them, and who are not supporting them, a terrorist state; and telling them that they should not have these kinds of weapons. Why then, if these weapons are banned and illegal, America and its allies and namely the countries of the Security Council have and keep on accumulating them? What are they going to do with them? They know damn well, if they use it, they are doomed and cannot live on the same planet. We have enough nuclear power to destroy the planet, perhaps the entire universe. I ask them, why do they not destroy all these weapons of mass destruction; but they will not answer this question. Then why are they keeping it? Is it just to terrorize other countries, which do not come in line with their ideology and their belief in the devil? It is obscene, that is the least you can say. They went ahead and bombed and killed innocent people, but they did not find weapons of mass destruction anywhere in Iraq, but initially they were the ones, who supplied these weapons to the Iraqis. After the war they now state, that the Iraqis are better off than before. But many of them have died and the ones alive are starving, they do not have security, they do not have power, they do not have light, they do not have clean water, they do not have work, no infrastructure, their oil is being squandered by the invaders and they say that the Iraqis are better off! Why, because they got rid of Saddam Hossein. What a lunatic obscene bastardly excuse, the excuse is more obscene than the reason, why did they get into Iraq from the start? But now, the so-called irrelevant United Nations

became again relevant, because they want them to clean up the mess. No one in the world thinks about taking them to Court or bring them in front of a tribunal. If they are not war criminals, which started the whole mess, what kind of a world are we living in? Are we really so stupid to believe them or are we all doomed? Are we forgetting that America is the only country in the world, which burnt people alive on the cross, just because they were black? And they continued until they got caught doing it? Did we not hear about the KKK or Klu Klux Klan or do they think that it is forgotten now and hushed up and done with it. I am appalled and sad, but I keep it to myself and pray to the Almighty to do, what ever He wants to do. But the question remains: All those famous and powerful scientists and knowledgeable people, the writers and inventors, nobody dared to speak to the news media? Let us talk about the free news media, is it really free? Or only free to serve the Master or free to serve their ideology. Other beliefs, thoughts and ideologies are illegal, banned and called terrorism? The question remains: why are they still developing those weapons and producing them in mass? Why do we have the so- called Intelligence Service? Why does every country must have an intelligence secret service and spying on each other?

On one hand they want a New World Order, on the other hand they have a so-called top- secret service, spying on all of us. We are the targets; they are playing God in every second of our life with cameras and via satellites. They know exactly when you get up, what you do, what you borrow and what your activities are, what your hobbies are and your needs. Why? If you go back again to the new world order, which is the new god, the only god they will permit if they are left unchecked. And they are doing it, because I for one cannot fight, I am not going to fight or incite or do anything. The only thing I can do is pray to the Almighty to put an end to all this mockery. In my opinion to enforce an embargo on an entire nation for a year or tens of years, like in the case of Cuba and other countries, is the real terrorism and it is terrorism to enforce an embargo and prevent people from supplying and receiving goods, drinking, and eating, which is their God's given right or human right, even according to their own law. Even if there is a reason to fight, there is no reason in the world according to God's rules and even their own rules to terrorize and embargo entire nations and starve them to death, because they do not like the way they look or that they do not get along with their leaders. So the only question right now is, who is the real terrorist in this environment, which they call the new world order. The other thing about this hypocrisy is, that all those countries which call themselves Christian countries, they worship God, but if it comes to the Laws, God laws, they are irrelevant, they do not need them. They did not yet make up their mind, if they want to be Christians or not or so-called Moslems, but if it comes to their Laws and God's laws or the Ten Commandments, they are just not acceptable, they have their own conservative and liberal versions and God's version is not to be even considered. What hypocrites, why do they bother themselves about being called Moslem nations and supposedly living under the name of Islam and Christian nations living according to Christianity or for that matter Israel, which is supposed to be a Jewish nation and living by the Torah. These stupid idiots do not know that the Torah, the Old Testament, the Bible and the Koran are the same and contain the same rules and have the same God and it is the same belief, but they do not follow any rules. They

did not make up their mind, or maybe they did make up their mind, but they are fooling us. If they want to be Moslems that is fine and we call this nation to be a Moslem nation, but then the constitution must be the Koran and if they want to be Christians, that is also fine, we will call this a Christian nation and we declare that in the constitution and write on our currency "In God We Trust", but we do not follow this. The same thing happened to the Jews and Israel. They want to call themselves a Jewish nation, that is okay; they even created a nation only for the Jews, because the Jews did not have a Jewish nation initially, they stole the land from the ones, who were just unlucky to be sanctioned by the winners of the so-called Second World War and we had a Jewish nation. But guess what? All Jews on earth can be citizens of this nation of Israel, even if they never put their foot on its soil.

We do not follow God and we do not follow the Torah, the Old Testament, the Bible or the Koran. We commit adultery, we have free sex and everything the devil dictates. What kind of bastards is the Human race? It is not only the government, actually the people like it and make their own political parties and groups, where they are acting as if they have legitimate questions and bring ideas back and forth, as long as they stay far away from God's Commandments. For that reason they tailored their own laws and punish people with jail and wipe out their financial existence and imprison them and make new laws, which they call hate crimes. What you write is called hate literature; they prevent you from speaking or expressing your own opinion or even in future, to think. That did not happen yet, but it will come, like in my case. These laws supersede their own laws of freedom of expression or freedom of religion. But to write about Satan or have a Satan religion or have a ceremony worshipping the devil it is fine. Only when it comes to God, look around the world, where the mosques are, especially on Friday, all the mosques are surrounded by army, police and National Guard. I ask why? Did praying become a sort of terrorism or only the Moslem prayer became a sort of terrorism? And who is watching over them? It is their government, which dares to call itself a Moslem government. These bastards, what are they going to tell God? They probably do not think, that they are going to meet God, but are reincarnated and live again in another form of life. They never think, that we are here only for a very short time and this life is only a test for the other life, be it in Hell or Heaven, eternally. How ironic!

Prophet Moses compared to Pharaoh

In the history of mankind, two men asked and wanted to see God. Both men Moses and Pharaoh, came from the same country, namely Egypt, both men were Egyptians, both men lived in the same place, actually in the same palace, both men tried their utmost, each one in their own objective. One of them built a high structure to see and challenge God, the other one asked to openly to satisfy himself to see God. Both men were God's creation, made by Him, both men were put to the test, but both of them could not see God.

One of them was Moses, who made his choice and decided to follow his creator.

The other man was pharaoh, who made up his mind to challenge his creator.

Moses obeyed his Lord and carried out His message and lived and fought to receive the Commandments, on the other hand pharaoh lived to see the end of his defiance.

Both men wanted to cross the water. Moses succeeded in his task and lived by God's will to cross over, pharaoh was drowned and died in the same water.

Moses' body with buried after his natural death, Pharaoh's body survived after his doomed end, some of us might even been privileged to see his dry-rotten old body in the museums.

Moses was blessed and moved on to his Lord's domain, but pharaoh moved towards his eternal hell.

God told us this factual story, factual history, guiding us to His evidence and to prove to us His absolute power and give us a chance to live by His Book. God is giving us the benefit of His infinite patience and teaching us some of His wisdom, one of which is, that nothing is ever lasting, nothing is worth to commit sins for and follow His enemies, the conspirators and their master, the devil. But are we to listening and learning, that no matter how far we go and how much we own or gain or how much power we have, that it is not going to stop us from our ultimate and soon end, after a short mortal life?

(Approach Whateom County Court
with Extreme Caution)

Judge Moynihan

Judge Mura

Judge Nichols

YOUR

REWARD IS JUSTICE

JUDGE IMPOSED \$500.00 SANCTION FOR MYOCLONIC SEIZURE IN HIS COURT ROOM...

In the following court document filed in the Washington Appeals Court, which The Exposure recent obtained, Mohamed Ahmed, who is currently involved in litigation against Paradise Lakes Country Club a Sumas home-owner's association, is documented to have been singled out and discriminated again by the Whatcom County Superior Court.

***MOHAMED AHMED, being first duly sworn on oath, deposes and says:**

1. This affidavit is prepared by me to voice my objection to the manner in which my family and I have been treated by the Whatcom County Superior Court. I am speaking in the name of justice, in the hope for justice.
2. Yesterday, Monday July 14, 1997, before Whatcom County Superior Court Judge Mura, I experienced a severe myoclonic seizure. I immediately left the court room, so as not to interrupt the proceedings. My seizures are triggered by my Ventricular Tachycardia. I will refresh your memory by pointing out that Former President George Bush, experienced Ventricular Tachycardia in Japan, when he fell off his seat, and landed under the table. I too fell off my seat in the court room, but I quickly picked myself up, and left the court room, so as to avoid a scene.
3. In the lobby area outside, I then experienced several more seizures, each time falling off the bench that I had been laying on. I broke my glasses, while good Samaritans, did their utmost to make me feel comfortable. I am grateful for their attention, and kindness.
4. My condition is documented, and is even part of the court's files. I have one other time experienced a seizure in Judge

Mura's court room, although the motion that was being heard at the time, was not even mine. Judge Mura's court was in session at the time, and Judge Mura witnessed the seizure. I can not understand Judge Mura's consequent comments, that I was being sanctioned \$500.00 for contempt of Court. I have even more trouble understanding Judge Mura's further comments, that unless I can prove by a medical certificate that my condition is physical and not emotional, I will face addition contempt charges. **Is Judge Mura a medical professional hiding behind a black robe?** Is he an experienced Cardiologist? Then I ask, what is the fine line behind physical symptoms, and emotional symptoms? Are they not connected? When you are emotionally distressed (as in the situation, of totally unfair rulings against you and your family), your blood pressure, and breathing accelerates, and the result is physical? So what is the fine line between physical symptoms and emotional symptoms? Judge Mura's rulings yesterday were totally out of line, and ought not to be tolerated. Judge Mura went so far so as to insinuate that I had been faking. Is not a Superior Court Judge supposed to give me the benefit of the doubt? Is it not good judicial practice to give parties the benefit of the doubt? Judge Mura

proved to me, that he is nothing less than an *"Evil Barbarian In a Robe"*.

5. Throughout the last two years, while my cases have been in motions, my family and I have witnessed first hand the inhumane and totally unjust and unfair treatment of those that are not "white Anglo-Saxons" in Whatcom County. I can think of no other reason, why I should be treated in this cruel manner. I can think of no other reason why I should not receive any sympathy by the Court, when it clear and evident that my family and I have been victimized from the start.
6. My family and I have been **ordered** not to speak; not to write; not to meet; not to walk down my street; not to use club facilities; to live without Washington State water that was ordered cut off; not to borrow water... etc. **What's left? Not to breathe...** fortunately, till now the Whatcom County Superior Court has been unable to place locks on the air that we breathe, or else, my family and I would have been told not to breath... and I'm not being facetious I'm only speaking the truth, and sometimes the truth hurts. Unfortunately [t]his is not a joke, but real like in Whatcom County U.S.A.
7. In a bizarre twist to Judge Mura's rulings yesterday, I have been informed by my attorney, that should I not come up with a **satisfactory doctor's certificate** outlining that my seizures ,,

are physical and not emotional, then I would not be allowed to testify in my case, except, in the physical assault against my daughter, by the Paradise Lakes Country Club former treasurer. Curiously, I am unable to testify to that anyway, as I was not there, and was not a witness to the incident. So in fact, Judge Mura is now preventing me from testifying in my case as well. How can this be called justice? How can this be called decency? How can this be called morality? **Is this not blackmail?**

8. Because of my medical condition yesterday, I was unable to attend a deposition, which Paradise Lakes Country Club had failed to request till one week prior to trial. My attorney apologized on my behalf. Then the attorneys for Paradise Lakes Country Club, placed a verbal motion, and received an audience with Judge Mura... for that afternoon at 1:45 p.m. Judge Mura made it clear that I would have to attend the deposition today unless I produced a medical certificate. Without a medical certificate, all my testimony in my case would be stricken, except for my daughter's assault, which again, I am not a party to, nor did I even witness, and therefore can not offer any testimony. **In other words, my entire case would be railroaded, and injustice would prevail.**

9. **There is no doubt in my mind, that Whatcom County Superior Court judges and the Paradise Lakes Country Club attorneys are in collaboration. There is no doubt in my mind that all three Whatcom County Superior Court Judges are covering up for each other, and out to get me. Only last Friday, Judge Nichols ruled that I pay \$22,790 sanctions for legal fees for a case that is still pending both in the Whatcom County Superior Court, and the Washington Court of Appeals, and to which I am the Plaintiff. This is against the law. I truly believe, that this was an attempt for the Court system in Whatcom County to trigger a massive heart attach or stroke, and in effect force me to drop all my cases. But I will not give up. I will not be deterred. This is my life.**
10. Throughout the past two years, we have proven that documents were missing from our files; the Calendar Clerk has stricken our motions, and inserted motions for the opposing parties without notice; the Calendar Clerk has been going behind the scene and bad mouthing my attorney and I, both to Commissioner Simmers, and to Judge Mura, this is documented on the record; secret files that were taken in-camera by Judge Mura [Moynihan], were never released to us, nor were we made aware of their contents, except for a very discriminatory document that was accidentally leaked to us; transcripts have been forged to embellish the words of the judge that made them; I have been ordered to supply medical

records from my birth to date, including all medical records pertaining to HIV, and other sexually transmitted diseases, or drug abuse, which is in clear violation of the RCW; Judge Moynihan has stated on the record that he had discussed my daughter's behavior with Judge Ross of Whatcom County District Court; we have seen Judge Mura coach Mr. Abbott, on how and when to prepare further contradictory so called "corrected" affidavits from his clients; we have seen Judge Moynihan include testimony from Mr. Shearer, and Mr. Klos, both of whom were impeached on the stand in a Fact Finding Hearing, while totally ignoring the testimony of my family, including the flawless testimony of my daughter, who was never even cross-examined; we have seen the documentation, that proves that Judge Mura [Moynihan] was in contact with Paradise Lakes Country Club attorneys, regarding the amount of a \$2,500 bond, and the timing of the payment of the bond; we have been deprived of our basic American constitutional rights... freedom of speech and freedom of assembly.

11. In that extremely sensitive document that was accidentally leaked to us, a reference was made by the current Paradise Lakes Country Club President, Mr. Joseph H. Shearer: "If Mohamed Ahmed.... tell that Arab..." this document was stricken from evidence. Is not that kind of document, the exact proof needed to establish the mind-set of Mr. Shearer?

Numerous other affidavits and declarations were also stricken. They all attest to the fact that my family and I have been singled out and discriminated against by Paradise Lakes Country Club board and management. Is that not relevant evidence? Is that not abuse of justice?

12. In another twist, we have produced documents, where Mr. Shearer, was accused by Mr. Abbott in another court proceeding of being a thief, liar, and a drunkard. Yet, now, Mr. Abbott, since he is employed by the Paradise Lakes Country Club, is staunchly defending Mr. Shearer. This proves, that Mr. Abbott, has absolutely no credibility, and goes wherever the buck is greater. Further, at the recent Paradise Lakes Country Club Annual General Meeting, held in May 1997, Mr. Abbott, encouraged and coached the Paradise Lakes Country Club Board and Management to break the law, and break its own governing bylaws. Mr. Abbott is documented as defending the Paradise Lakes Country Club Board of Trustees, against the Paradise Lakes Country Club membership, whom he is milking in massive legal fees.
13. Rumors have been flying rampant in the Whatcom County Court House, that it is being investigated by the Washington Commission on Judicial Conduct, but judges should not be immune, and judges should be responsible for their actions. Discrimination against minorities is inexcusable. It results in

the breakdown of the American Way. The standard that is so highly looked upon by other nations of the world. This behavior can not be tolerated.

16. There are only three Superior Court Judges in Whatcom County, that communicate to each other. Each one has proven that he is unable to uphold the basic standards of fairness. Judge Moynihan has recused himself after being exposed, Judge Nichols has stated on the record that he can not be fair, but refused to recuse himself, and Judge Mura has proven that he is heartless when it comes to dealing with minorities. I do not believe that my cases can be fairly tried in Whatcom County, therefore, I respectfully request that this Court, order a change in venue. I only want what is mine, nothing more and nothing less.
17. Thank you for allowing me the opportunity to vent my frustrations. I apologize in advance, if I have offended this Court, in any way. My anger is only directed towards the Whatcom County Superior Court, for its mishandling of my family and I.
18. I would also like to point out that this affidavit is being prepared and presented by myself. However, due to my medical condition, I feel that it is important that I document everything, should this case result in the loss of my life.
SUBSCRIBED AND SWORN to before me this 15th day of July, 1997."

Open Letter to President Clinton, Senate Commission on Judicial Conduct, Washington Commission on Judicial Conduct, the F.B.I. (Civ Rights Division) Federal Attorney General, State Attorney General Washington Bar Association, U.N. Human Rights Dept. & News media

By: Mohamed Ahmed

Superior Court Justice Whatcom County Style

To date my family and I have been subjected to a campaign of harassment if not downright attempted murder by the judges of Whatcom County Superior Court, namely, Judge Moynihan, Judge Nichols and Judge Mura. But I am a peaceful man. My only weapon is my pen, and my only power comes from God.

Court orders have prevented us from our First Amendment Rights, not only in the United States of America, Land of Freedom, Land of Plenty, but outside of the U.S. as well. We have also been prevented from even borrowing water, which everyone knows is an essential element of life. What is next? Will we be ordered to stop breathing the air? Or maybe we will be sanctioned if we do breathe??? Each (!%\$#@+) judge has chosen to ignore the law of the State and the Country, rather than uphold it. Orders have been simply signed without so much as a quick glance to insure that the order complies with what is stated in court. In my humble opinion, they have demonstrated to me that they are corrupted, lawless and Godless, in a country where its currency states: "In God We Trust!" how-

ever, this is all documented in indisputable evidence such as court documents.

I have been stripped of my basic Freedom of Assembly FOR LIFE! Even common criminals are afforded a sentence with a maximum time stated in bold, then they are given reduced sentences for good behavior and probation. But not me. This is unconstitutional, however, it is obvious the U.S. constitution holds very little weight in Whatcom County, U.S.A. Instead, judges choose to make the rules to fit their ideology without any regard for basic human rights. Somewhere along the line, the judge forgot that he is permanently banning my presence on MY PROPERTY. One would expect wisdom and understanding from a judge. One would expect compassion and a heart from a judge. Instead, the order for the day was a \$500.00 sanction. The judges of Whatcom County Superior Court have demonstrated to me, time and time again, that they are arrogant, ignorant of the law, tyrannical in nature, totally unjust, have vio-

lated common decency and acted completely hypocritically. The judges have sold themselves, but what for? to protect a Brotherhood? to protect a Clan? to protect the Old Boy's Club? I don't know... They have simply prostituted the law and the judicial system. All the while destroying innocent lives, such as the lives of my family members. For those of you, who are wondering the about the names of the opposing attorneys that we have had to contend with they are: Mark Packer, Gene Moses, Joe Abbott, Douglas Shepherd, and Matthew Boyle. The title of Honorable has disgraced justice in Whatcom County. How does the system, allow this brand of justice to continue to operate? It is no wonder that people have lost their trust in the system, and I am no exception.

My displeasure, however, is not only limited to the three Superior Court judges, but also extends to their strange bedfellows, in the courthouse including: N.F. Jackson, the Clerk, and who doubles as a commissioner as well; Robert Hollister, a court transcriber;

Gloria Hanson, a court transcriber; and Kay, the calendar clerk. Each has at one time or another, demonstrated to me, that he or she is incapable of dealing with peoples of minorities, and in a court system, that is definitely cause for concern, not to mention unethical conduct and abuse of office.

- We have witnessed a judge sign an order at 7:12 a.m., on the first work day, following the President's Day long weekend. One must bear in mind that the Court does not open till 8:30 a.m. The same order stated that our attorney was present in person, along with the attorney from the opposing party. Yet our attorney most definitely was not there. By Judge Nichols.
- We have witnessed how the U.S. Constitution protects one's right to have a trial by jury, and how that right is quickly stripped away. Simply by bogus dismissals at the judge's discretion. Then when was jury finally selected, and three sets of jury instructions were submitted, the judge decides to draft his own set, where the offenders can never be found li-

able... this occurred on July 28, 1997... this is not justice! Unfortunately this is not a joke. By Judge Mura.

- We have witnessed how a local lawyer rests his case before the weekend, then the following work day, is allowed to continue... this is simply a mockery of the justice system, and nothing less. It is a charade, where everyone wears their costume, and plays the part, yet the script is already written. In this case the decision is already written. By Judge Mura.
- We have witnessed how a judge simply finds the law of the state inadmissible... HELLO!!! THE STATE LAW IS INADMISSIBLE??? SINCE WHEN???? By Judge Mura.
- We have witnessed how incriminating evidence was simply ruled inadmissible. Evidence that proves discrimination and racism. By Judge Mura.
- We have witnessed how evidence is manipulated, where there was no testimony in court, but the judge chooses to adopt so-called rulings from a prior hearing... This is not justice. A case is supposed to be decided on what occurred in the court room. That is why we had a trial. We could have all saved a lot of money, and just stayed home, otherwise. Again this is not justice, but it is an abuse of the justice system, not to mention, an abuse of power. No explanation was offered what-so-ever. By Judge Mura.

- We have witnessed the same judge that stated a prior judge's rulings were unenforceable, and unconstitutional, simply adopt whole sections from the same rulings. By Judge Mura.
- We have witnessed the same judge state that the prior judge's unenforceable and unconstitutional order, will remain in effect, till he signs the new one... This makes no sense. By Judge Mura.
- We have witnessed how the judge found animosity existing between the parties, and found that our actions were totally legal. Yet our claims were dismissed by Summary Judgment, without the benefit of a trial by jury, despite the fact, that the jury fees had been paid for this purpose. By Judge Mura.
- We have witnessed how the judge quickly skirted the issue of refund of dues for services not rendered... by giving the excuse that the fee structure is not broken down... how about a quick glance to the financial statements, this would explain where the dues are supposedly going. By Judge Mura.
- We have witnessed judges coach local lawyers on motions to bring forth. By Judge Mura & Judge Nichols.
- We have witnessed judges question the local lawyer, perhaps your client forgot? How can one "forget" when they are signing their names on a sworn affi-

davit... there is no room for forgetfulness under those circumstances. By Judge Mura

- We have witnessed how Findings are brought on without the crucial element of evidentiary support. This is frightening. By Judge Moynihan.
- We have witnessed our cause being threatened with being thrown out because a sanction against us was unpaid pending the result of a Motion for Reconsideration. By the same token, a sanction against the opposing party still remains unpaid. When this was brought to the judge's attention, he ignored it. By Judge Nichols.
- We have witnessed witnesses in a Fact Finding Case testifying in front of each other, and being allowed to remain in the court room. When all witnesses contradicted themselves, and some perjured themselves, and were impeached, their testimony was taken as credible and indisputable. By Judge Moynihan.
- We have witnessed a judge sit on secret files in-camera, and never disclose the fact that he had received these secret files to us, nor disclose the contents of those secret files. However, through a leak, it was determined that these files included extremely sensitive documents which point to racial discrimination. By Judge Moynihan.

- We have witnessed an attorney request an order for 5 ft. and receive an order for 100 ft., although no testimony was given what-so-ever which would specify distances. By Judge Moynihan.
- We have witnessed a judge order the release of medical records, from birth to death, including unrelated and totally irrelevant sensitive material such as: HIV test results, and other STD test result. All contrary to the RCW. By Judge Nichols.
- We have witnessed a \$2,500 case based on Refund of Dues for Services Not Rendered, **illegally elevated for no reason to Superior Court**, and result in the squandering of tax payer's money, and membership money in the figure of \$200,000. What for? What is there to hide from? By District Court Judge Rhea.
- We have witnessed a local lawyer refer to his current employer as a drunkard and thief. Then when this is brought to the attention of all, the Court suggests that the lawyer sue us for defamation. All the while forgetting that those were not the words of *The Exposure*, but the words of the attorney against the president of the home-owner's association, which has now hired him. By Judge Mura.

Why is nothing happening to control this situation? Is everybody waiting for us to get killed first? We already received a racially heated, sexually explicit death and arson threat letter. Or that my family and I face bank-

ruptcy first? Or perhaps everyone is just waiting for things to go away, or get sufficiently covered up.

This entire case began for a \$2,500 District Court Action - Refund of Dues for Services Not Rendered... yet, I was falsely arrested, and received an apology letter from the Sheriff's Dept., and my daughter was assaulted by the Home-Owner's former Treasurer... Why? None of this makes any sense... There must be a massive cover-up!! What is being protected? I have no idea, but somebody out there does.

I was almost deliberately run-over by a security vehicle, in the Home-owner's association. When I sued, I was blasted with an order to pay \$23,000, or else my entire cause would be dismissed... THAT IS BLACKMAIL... Ironically, when criminal records were submitted of security employees, these records were ruled inadmissible. And by whom? By Judge Nichols.

How far will this go, before we see some action on the part of authorities? Does everything have to go way too far, before any action is take?

This is the United States of America – Land of Freedom, Land of Liberty -- yet, my family and I have been suffering from human rights abuses, right here in this blessed country... and the worst thing is, that nobody is doing anything to stop the continued abuse.

LOOK FORWARD TO A WEB SITE ON THE INTERNET; MOVIE RIGHTS ARE CURRENTLY BEING NEGOTIATED, ON A MOVIE THAT WILL EXPOSE THE SECRET ORGANIZATION (BELIEVED TO BE A MASONIC BROTHERHOOD) THAT IS CONTROLLING MUCH OF WHAT GOES ON IN THE COURT ROOMS OF WHATCOM COUNTY, BETWEEN JUDGES AND ATTORNEYS; AND OF COURSE MY NEW BOOK – IT WILL FULLY DOCUMENT ALL MY EXPERIENCES IN WHATCOM COUNTY USA.

For those of you who would like to inspect the court records to which we have made reference to above, please direct your attention to the following cause numbers:

Paradise Lakes Country Club v. Ahmed	No. 96-2-00110-1
Paradise Lakes Country Club v. Ahmed	Appeals No. 39186-1-1 (Division 1 in Seattle)
Paradise Lakes Country Club v. Ahmed	Appeals No. 40918-2 (Division 1 in Seattle)
Ahmed v. Whatcom Security Agency Inc., et al.	No. 96-2-01492-0
Ahmed v. Whatcom Security Agency Inc., et al.	Appeals No. (unavailable) (Division 1 in Seattle)
Ahmed v. James R. Andrews	No. 96-2-01152-1
Ahmed v. James R. Andrews	Appeals No. 40555-1-1 (Division 1 in Seattle)

Afterword

Finally I repeat my thanks to God in the beginning and in the end at each and every time of the day and the night that he gave me the power and energy in spite of my heart pains to complete that work and for his infinite, abundant blessings on me, my family, and all his creation, hoping that if this work, can help one person to see his or her way to God, will add to my satisfaction and make it all was worth the effort went into it.

Right or wrong bad or good I did my utmost to convey the facts as I thought, saw, or read it in the book/the holy Scriptures.

“And I do not ask you for a reward on it, that all my rewards are only from my Lord the God of the universes”(Chapter 26, verse 29).
